

Alternative Investment Fund Managers Directive (“AIFMD”) Remuneration (unaudited) The Manager has a remuneration committee (comprised of four Executive Committee partners) which decides upon the remuneration of partners and staff, taking into account the performance of the Manager generally as well as individual performance.

Annual partner and staff appraisals are carried out in order to assess individual performance against agreed objectives within the broader framework of Albion Capital’s performance. Financial and nonfinancial criteria are taken into account when assessing performance. Variable remuneration will be based on a combination of the assessment of the performance of the individual, the Manager and the funds managed by the Manager. The Manager does not link an individual's rewards to the success of individual portfolio companies but rather to the success of the Manager and the funds it manages as a whole.

The remuneration committee ensures an appropriate balance between fixed and variable components of remuneration of staff. In determining variable remuneration current and future risks are taken into account and variable remuneration is adjusted where appropriate. The Manager does not pay any guaranteed variable remuneration. Taking into account the amount of variable remuneration as a proportion of total remuneration and the size, nature and lack of complexity of the Manager’s organisation and its activities, remuneration is not subject to deferral or performance adjustments.

The Manager has a policy which is designed to identify and manage conflicts of interest to the extent that these cannot be avoided, and this applies to all staff.
