# Chairman's Statement

## Introduction

Close Technology & General VCT has raised £14.3 million from private investors since its launch in January 2001 and offers investors the opportunity to participate in a balanced portfolio of technology and non-technology businesses. Once fully invested, it is anticipated that the Company's investment portfolio will be split approximately as follows:

- 50% to be invested in technology companies, of which:
  - 20% will be invested in quoted investments in international technology stocks; and
  - 30% will be invested in unquoted UK technology-related companies.
- 50% to be invested in unquoted investments in UK non-technology companies.

## Investment Progress

The six months to 30 June 2002 have been a period of great market volatility, with the FTSE 100 Index falling 10.8%, the techMARK 100 Index falling 41% and the Nasdaq 100 Index by 33.3%. In these difficult conditions, your Company recorded a negative return (comprising income and capital) of 9.6% over the period and its interim dividend of 1 penny per share has been maintained.

At 30 June, qualifying investments by cost amounted to 52% of net funds raised, or £7.26 million. Within this, the Company's portfolio of unquoted technology investments now comprises 10 companies valued at £2.3 million, divided between private businesses and companies quoted on AIM. Although the value of these has fallen we believe that there is considerable potential within the portfolio. A further £1.38 million has been invested subsequent to the half year in qualifying investments.

The portfolio of non-technology investments has also grown, and provides a useful counterbalance to the more volatile, though potentially higher growth, technology portfolio. Investments range from the health care sector through to sectors such as defence, retail and leisure, with many owning freehold or long leasehold property as their principal asset.

Some £1.7 million is now invested in the non-qualifying portfolio of international quoted technology stocks, leaving approximately £800,000 still to be invested. Although the continued decline in the technology sector worldwide has led to a fall in value to £1.26 million at 30 June 2002, this fall has been partly counterbalanced by earlier profits taken on disposals, which at the half year amounted to £465,000.

## Outlook

Your Company has the aim of counterbalancing the growth potential of a broad technology portfolio with the stability and income generating characteristics of a conservatively structured portfolio of non-technology investments. Trading conditions, particularly in the technology sector, remain difficult but we see growth prospects on both sides of the Company in the longer term. Despite current market conditions, we remain committed to a steady dividend policy.

## Results and Dividend

As at 30 June 2002 the net asset value of the Company was £12.89 million (2001: £13.27million), equivalent to 89.9 pence per share (2001: 94.5p per share). Net income after taxation was £169,000 for the period enabling the board to declare a net interim dividend of 1.0 pence per share (2001: 1.0p per share to those shareholders who invested prior to 16 January 2001 and 0.5 pence per share to those shareholders who invested subsequent to 16 January 2001). Dividends will be payable on 9 October 2002 to those shareholders registered on 11 September 2002.

# **Independent review report on the interim information**

Independent review report to Close Technology & General VCT PLC

## **Introduction**

We have been instructed by the company to review the financial information for the six months ended 30 June 2002 which comprises the statement of total return, the balance sheet, the cash flow statement and related notes 1 to 8. We have read the other information contained in the interim report and considered whether it contains any apparent misstatements or material inconsistencies with the financial information.

## **Directors' responsibilities**

The interim report, including the financial information contained therein, is the responsibility of, and has been approved by the directors. The directors are responsible for preparing the interim report in accordance with the Listing Rules of the Financial Services Authority which require that the accounting policies and presentation applied to the interim figures should be consistent with those applied in preparing the preceding annual accounts except where any changes, and the reasons for them, are disclosed.

## **Review work performed**

We conducted our review in accordance with guidance contained in Bulletin 1999/4 issued by the Auditing Practices Board for use in the United Kingdom. A review consists principally of making enquiries of management and applying analytical procedures to the financial information and underlying financial data and based thereon, assessing whether the accounting policies and presentation have been consistently applied unless otherwise disclosed. A review excludes audit procedures such as tests of controls and verification of assets, liabilities and transactions. It is substantially less in scope than an audit performed in accordance with United Kingdom Auditing Standards and therefore provides a lower level of assurance than an audit. Accordingly, we do not express an audit opinion on the financial information.

## **Review conclusion**

On the basis of our review we are not aware of any material modifications that should be made to the financial information as presented for the six months ended 30 June 2002.

# Notes to the interim results

## 1. Principal activity

The principal activity of the Company is that of a venture capital trust. The Company is an investment company within the meaning of s266, Companies Act 1985.

## 2. Accounting policies

The principal accounting policies of the Company, all of which have been applied consistently throughout the period in the preparation of its accounts are set out below.

### Accounting convention

The financial statements are prepared under the historical cost convention, modified by the revaluation of certain investments. The financial statements are prepared in accordance with applicable United Kingdom law and accounting standards and with the Statement of Recommended Practice “Financial Statements of Investment Trust Companies” (SORP) in all material aspects. The particular accounting policies adopted are described below.

### Investments

Investments listed on recognised exchanges are stated at market value based upon middle market prices at the end of the accounting period. Unquoted investments are stated at a valuation determined by the directors in accordance with the British Venture Capital Association guidelines. Amounts accrued under redemption premium on secured loan stock are dealt with in the fixed asset investments of the Company. The unrealised depreciation or appreciation on the valuation of investments and gains and losses arising on the disposal of investments are dealt with in the capital reserve.

It is not the Company’s policy to exercise controlling or significant influence over investee companies. Therefore the results of these companies are not incorporated into the revenue account except to the extent of any income accrued.

### Income and expenses

All income and expenses are treated on the accruals basis and dividend income is included in revenue when an investment is quoted ex-dividend. Any fixed returns on non-equity shares or debt securities are recognised on a time apportionment basis.

### Management expenses

75 per cent. of management expenses, representing the proportion of the investment management fee attributable to the enhancement of the value of the investments of the Company, has been charged to capital reserves, net of corporation tax. All other expenses are charged to the revenue account.

### Issue costs

Issue costs associated with the allotment of ordinary share capital have been deducted from the share premium account in accordance with Financial Reporting Statement No. 4.

## Notes to the interim results (continued)

### Taxation

Taxation is applied on a current basis in accordance with Financial Reporting Standard No. 16. Taxation associated to capital expenses is applied in accordance with the SORP.

### Foreign Currency

Transactions denominated in foreign currencies are recorded in the local currency at the actual exchange rates as at the date of transaction. Monetary assets and liabilities denominated in foreign currencies at the period end are reported at the rates of exchange prevailing at the period end. Any gain or loss arising from a change in exchange rates subsequent to the date of the transaction is included as an exchange gain or loss in the capital reserve or in the revenue account depending whether the gain or loss is of a capital or revenue nature respectively.

### Reserves

#### *Capital reserves – realised*

The following are taken to this reserve:

- (i) gains and losses on the realisation of investments
- (ii) realised exchange differences of a capital nature
- (iii) expenses, together with the related taxation effect, charged in accordance with the above policies.

#### *Capital reserves – unrealised*

The following are taken to this reserve:

- (i) increases and decreases in the valuation of investments held at the period end
- (ii) unrealised exchange differences of a capital nature.

### Financial period

The Company was incorporated on 21 November 2000 and commenced trading on 16 January 2001. The first financial period of the Company ended 31 December 2001.

### 3. Income

Tax attributable to capital expenses	26	(26)	–	22	(22)	–
	42	(26)	16	26	(22)	4

### Notes

- (i) Venture Capital Trusts are not subject to corporation tax upon any capital gains.
- (ii) Tax relief on expenses charged to capital has been determined by allocating tax relief to all expenses proportionately by reference to the applicable corporation tax rate of 20% and allocating the relief in the same ratio as expenses between revenue and capital.
- (iii) No deferred tax on any asset or liability has arisen in the year.
- (iv) Tax is provided at the current rate of 20 per cent.

### 5. Dividends

The interim dividend of 1.0 pence per share, amounting in total to £143,634, will be paid on 9 October 2002 to those shareholders who are on the register on 11 September 2002.

The revenue return per share is based on the net revenue on ordinary activities after taxation but before deduction of dividends on £169,000 (2001: £104,000) in respect of 14,251,513 shares (2001: 11,070,823 shares), being the weighted average number of shares in issue during the six months. The capital return per share is based on net capital loss for the period of £1,558,000 (2001: £88,000) in respect of the same weighted average number of shares in issue over the six months.

### 7. Other information

The financial information set out in the announcement does not constitute the Company's statutory accounts for the six months ended 30 June 2002 or 2001. The financial information for the year ended 31 December 2001 is derived from the statutory accounts delivered to the Registrar of Companies. The auditors reported on those accounts; their report was unqualified and did not contain a statement under s237 (2) or (3) of the Companies Act 1985.

### 8. Publication

This interim report is being sent to shareholders and copies will be made available to the public at the registered office of the Company.
