Investment objectives

Albion Technology & General VCT PLC (“the Company”) is a Venture Capital Trust which raised £14.3 million in December 2000 and 2002, and raised a further £35.0 million during 2006 through the launch of a C share issue. The Company offers investors the opportunity to participate in a balanced portfolio of technology and non-technology businesses. The Company’s investment portfolio is intended to be split approximately as follows:

- 40 per cent. in unquoted UK technology-related companies; and
- 60 per cent. in unquoted UK non-technology companies.

The Investment Manager pursues a longer term investment approach, with a view to providing shareholders with a strong, predictable dividend flow combined with the prospects of capital growth. This is achieved in two ways. First, controlling the VCT’s exposure to technology risk by ensuring that many of the companies in the non-technology portfolio have property as their major asset, with no external borrowings. Second, by balancing the investment portfolio by sector, so that those areas such as leisure and business services, which are susceptible to changes in consumer sentiment, are complemented by sectors with more predictable long term characteristics, such as healthcare and the environment.

Interim management report

Introduction

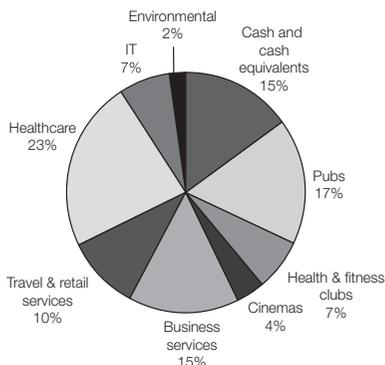

The results for Albion Technology & General VCT PLC for the six months to 30 June 2010 reflect the UK's continued tentative recovery from the 18 month recession. Accordingly, the Ordinary share portfolio recorded a positive total return of 3.3 pence per share, while the less mature C Share portfolio recorded a small negative return of 0.9 pence per share.

Investment performance and progress

The Ordinary share portfolio benefited from the successful sale in June 2010 of the investment in RFI Global Services Limited, realising an initial consideration of twice the holding value at 31 December 2009. In addition, strong trading performances from our longstanding investments in Peakdale Molecular and The Q Garden Company both led to higher valuations. The C share portfolio also benefited from the sale of RFI Global Services, although to a lesser degree as the investment was considerably smaller. After 18 months of write downs, the C share portfolio remained largely stable over the period, though further provisions were made against the investments in Rostima and Chichester Holdings, in the light of disappointing trading.

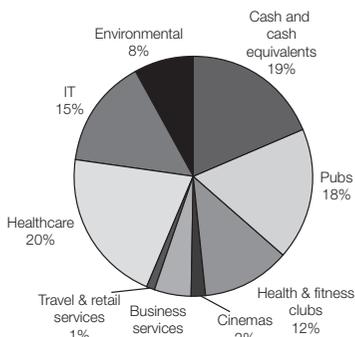

During the period, £480,000 was invested in new investments in the Ordinary share portfolio and £1.75 million in the C share portfolio. Key investments included the Orchard Portman psychiatric hospital outside Taunton, and Masters Pharmaceuticals, which distributes "special" pharmaceuticals on a world-wide basis. Subsequent to 30 June, an investment was made in TEG Biogas (Perth) Limited, a waste food-to-energy power station in Scotland. Further renewable energy investments are currently in the process of being made.

Risks and uncertainties

Despite the current growth in the economy, we still remain cautious over the longer term outlook for the UK in the light of prospective Government spending cuts and high national debt levels. Nevertheless, despite pressures on certain of our investee companies, the portfolio as a whole remains cash generative and it remains our general policy that investee companies have no external bank borrowings.

Other risks and uncertainties remain unchanged and are as detailed on pages 24 and 25 of the Annual Report and Financial Statements for the year ended 31 December 2009.

Interim management report (continued)

Related party transactions

Details of material related party transactions for the reporting period can be found in note 12 to this Half-yearly Financial Report.

Merger of Ordinary shares and C shares

In line with the terms of the C share issue in 2006, the C shares are due to convert to Ordinary shares based on the respective net asset values of each class of share as at 31 December 2010. The merger will become effective by 31 March 2011. The merged portfolio will comprise 44 companies and will benefit both from the revenue-generating maturity of the older companies within the Ordinary share portfolio and the growth potential of the C share portfolio. Bearing in mind the projected income generation of the enlarged portfolio, combined with available reserves and cash resources, it will be your Company's longer term target to pay out annual dividends of 5 pence per share on the enlarged Ordinary share class, so far as it is able. Were the C shares to convert to Ordinary shares on the basis of the 30 June 2010 net asset value, after allowing for the second dividend of the year, this would be equivalent to annual dividends of approximately 4 pence per C share.

Results and dividends

As at 30 June 2010 the net asset value per Ordinary share was 92.0 pence (30 June 2009: 86.9 pence, 31 December 2009: 92.7 pence) and the net asset

value per C share was 70.6 pence (30 June 2009: 73.3 pence, 31 December 2009: 72.7 pence). The revenue return before tax in respect of the Ordinary shares for the six months to 30 June 2010 was £150,000 (six months to 30 June 2009: £203,000, 31 December 2009: £432,000), and for the C shares the revenue return before tax was £262,000 (six months to 30 June 2009: £212,000, 31 December 2009: £544,000). The capital return before tax for the Ordinary shares was a gain of £279,000 for the first six months of 2010 (six months to 30 June 2009: loss of £179,000, 31 December 2009: gain of £355,000) and for the C shares was a loss of £535,000 for the six months to 30 June 2010 (six months to 30 June 2009: loss of £2,641,000, 31 December 2009: loss of £2,964,000).

The Ordinary shares will pay a second dividend for the year of 4 pence per share and the C shares will pay a second dividend for the year of 1.5 pence per share, in each case payable on 29 October 2010 to shareholders on the register as at 1 October 2010.

Responsibility statement

The Directors, as listed on page 2 of this Report, are responsible for preparing the Half-yearly Financial Report. The Directors have chosen to prepare this Half-yearly Financial Report for the Company in accordance with United Kingdom Generally Accepted Accounting Practice ("UK GAAP").

In preparing these summarised financial statements for the period to 30 June 2010, we the Directors of the Company, confirm that to the best of our knowledge:

- (a) the summarised set of financial statements has been prepared in accordance with the pronouncement on interim reporting issued by the Accounting Standards Board;
- (b) the interim management report includes a fair review of the information required by DTR 4.2.7R (indication of important events during the first six months and description of principal risks and uncertainties for the remaining six months of the year);
- (c) the summarised set of financial statements give a true and fair view in accordance with UK GAAP of the assets, liabilities, financial position

and profit and loss of the Company for the six months ended 30 June 2010 and comply with UK GAAP and Companies Act 1985 and 2006; and

- (d) the interim management report includes a fair review of the information required by DTR 4.2.8R (disclosure of related parties' transactions and changes therein).

The accounting policies applied to the Half-yearly Financial Report have been consistently applied in current and prior periods and are those applied in the Annual Report and Financial Statements for the year ended 31 December 2009.

This Half-yearly Financial Report has not been audited or reviewed by the Auditors.

By order of the Board

Dr N E Cross
Chairman

Comparative figures have been extracted from the unaudited Half-yearly Financial Report for the six months ended 30 June 2009 and the audited statutory accounts for the year ended 31 December 2009.

The accompanying notes on pages 26 to 37 form an integral part of this Half-yearly Financial Report.

The total column of this Summary income statement represents the profit and loss account of the Company. The supplementary revenue and capital columns have been prepared in accordance with the Association of Investment Companies' Statement of Recommended Practice.

All revenue and capital items in the above statement derive from continuing operations.

There are no recognised gains or losses other than the results for the periods disclosed above. Accordingly a Statement of total recognised gains and losses is not required. The difference between the reported loss on ordinary activities before tax and the historical profit is due to the fair value movements on investments. As a result a note on historical cost profit and losses has not been prepared.

Notes to the unaudited summarised Financial Statements for the six months to 30 June 2010

1. Accounting convention

The Financial Statements have been prepared in accordance with the historical cost convention, modified to include the revaluation of investments, in accordance with applicable United Kingdom law and accounting standards and with the Statement of Recommended Practice "Financial Statements of Investment Trust Companies and Venture Capital Trusts" ("SORP") issued by the Association of Investment Companies ("AIC") in January 2009. Accounting policies have been applied consistently in current and prior periods.

2. Accounting policies

Investments

Quoted and unquoted equity investments

In accordance with FRS 26 "Financial Instruments Recognition and Measurement", quoted and unquoted equity investments are designated as fair value through profit or loss. Investments listed on recognised exchanges are valued at the closing bid prices at the end of the accounting period. Unquoted investments' fair value is determined by the Directors in accordance with the International Private Equity and Venture Capital Valuation Guidelines (IPEVCV guidelines). The revised September 2009 IPEVCV guidelines have not had a material impact on the portfolio.

Fair value movements on equity investments and gains and losses arising on the disposal of investments are reflected in the capital column of the Income statement in accordance with the AIC SORP and realised gains or losses on the sale of investments will be reflected in the realised capital reserve, and unrealised gains or losses arising from the revaluation of investments will be reflected in the unrealised capital reserve.

Unquoted loan stock

Unquoted loan stock is classified as loans and receivables in accordance with FRS 26 and carried at amortised cost using the Effective Interest Rate method less impairment. Movements in respect of capital provisions are reflected in the capital column of the Income statement and are reflected in the realised capital reserve following sale, or in the unrealised capital reserve on revaluation.

For all unquoted loan stock, fully performing, renegotiated, past due and impaired, the Board considers that the fair value is equal or greater than the security value of these assets. For unquoted loan stock, the amount of the impairment is the difference between the asset's cost and the present value of estimated future cash flows, discounted at the effective interest rate.

Warrants, convertibles and unquoted equity derived instruments

Warrants, convertibles and unquoted equity derived instruments are only valued if their exercise or contractual conversion terms would allow them to be exercised or converted as at the balance sheet date, and if there is additional value to the Company in exercising or converting as at the balance sheet date. Otherwise these instruments are held at nil value. The valuation techniques used are those used for the underlying equity investment.

Floating rate notes

In accordance with FRS 26, floating rate notes are designated as fair value through profit or loss. Floating rate notes are valued at market bid price at the balance sheet date. Floating rate notes are classified as current asset investments as they are investments held for the short term.

Investments are recognised as financial assets on legal completion of the investment contract and are de-recognised on legal completion of the sale of an investment.

Dividend income is not recognised as part of the fair value movement of an investment, but is recognised separately as investment income through the revenue reserve when a share becomes ex-dividend.

Loan stock accrued interest is recognised in the Balance sheet as part of the carrying value of the loans and receivables at the end of each reporting period.

It is not the Company's policy to exercise control or significant influence over investee companies. Therefore, in accordance with the exemptions under FRS 9 "Associates and joint ventures", those undertakings in which the Company holds more than 20 per cent. of the equity are not regarded as associated undertakings.

Investment income

Quoted and unquoted equity income

Dividend income is included in revenue when the investment is quoted ex-dividend.

Unquoted loan stock and other preferred income

Fixed returns on non-equity shares and debt securities are recognised on a time-apportionment basis using the effective interest rate over the life of the financial instrument. Income which is not capable of being received within a reasonable period of time is reflected in the capital value of the investment.

Notes to the unaudited summarised Financial Statements for the six months to 30 June 2010 (continued)

2. Accounting policies (continued)

Investment income (continued)

Bank interest income

Interest income is recognised on an accruals basis using the rate of interest agreed with the bank.

Floating rate note income

Floating rate note income is recognised on an accrual basis using the interest rate applicable to the floating rate note at that time. Floating rate notes are classified as current asset investments as they are held for the short term.

Investment management fees and other expenses

All expenses have been accounted for on an accruals basis. Expenses are charged through the revenue account except the following which are charged through the realised capital reserve:

- 75 per cent. of management fees are allocated to the capital account to the extent that these relate to an enhancement in the value of the investments and in line with the Board's expectation that over the long term 75 per cent. of the Company's investment returns will be in the form of capital gains; and
- expenses which are incidental to the purchase or disposal of an investment are charged through the realised capital reserve.

Performance incentive fee

In the event that a performance incentive fee crystallises, the fee will be allocated between revenue and realised capital reserves based upon the proportion to which the calculation of the fee is attributable to revenue and capital returns.

Taxation

Taxation is applied on a current basis in accordance with FRS 16 "Current tax". Taxation associated with capital expenses is applied in accordance with the SORP. In accordance with FRS 19 "Deferred tax", deferred taxation is provided in full on timing differences that result in an obligation at the balance sheet date to pay more tax or a right to pay less tax, at a future date, at rates expected to apply when they crystallise based on current tax rates and law. Timing differences arise from the inclusion of items of income and expenditure in taxation computations in periods different from those in which they are included in the financial statements. Deferred tax assets are recognised to the extent that it is regarded as more likely than not that they will be recovered.

The specific nature of taxation of venture capital trusts means that it is unlikely that any deferred tax will arise.

The Directors have considered the requirements of FRS 19 and do not believe that any provision should be made.

Reserves

Share premium

This reserve accounts for the difference between the price paid for shares and the nominal value of the shares, less issue costs and transfers to the special reserve.

Capital redemption reserve

This reserve accounts for amounts by which the issued share capital is diminished through the repurchase and cancellation of the Company's own shares.

Unrealised capital reserve

Increases and decreases in the valuation of investments held at the year end against cost are included in this reserve.

Special reserve

The cancellation of the share premium account has created a special reserve that can be used to fund market purchases and subsequent cancellation of own shares, to cover gross realised losses, and for other distributable purposes.

Treasury shares reserve

This reserve accounts for amounts by which the distributable reserves of the Company are diminished through the repurchase of the Company's own shares for treasury.

Realised capital reserve

The following are disclosed in this reserve:

- gains and losses compared to cost on the realisation of investments;
- expenses, together with the related taxation effect, charged in accordance with the above policies; and
- dividends paid to equity holders.

Dividends

In accordance with FRS 21 "Events after the balance sheet date", dividends declared by the Company are accounted for in the period in which the dividend has been paid or approved by shareholders in an Annual General Meeting.

C shares

Until such time that C shares are converted into Ordinary shares, all investments and returns attributable to this class of share will be separately identifiable from the existing Ordinary shares. All residual expenses will be allocated on the basis of total funds raised for each class of share.

Notes to the unaudited summarised Financial Statements for the six months to 30 June 2010 (continued)

8. Share Capital (continued)

During the period to 30 June 2010 the Company purchased 20,000 Ordinary shares and 603,886 C shares to be held in treasury at a cost of £15,000 and £359,000 respectively, representing 0.15% and 1.69% of the shares in issue as at 1 January 2010 respectively. The shares purchased for treasury were funded from the Treasury shares reserve.

The total number of Ordinary shares held in treasury as at 30 June 2010 was 888,094 (30 June 2009: 805,043; 31 December 2009: 868,094) and the total number of C shares held in treasury as at 30 June 2010 was 1,598,918 (30 June 2009: 637,655; 31 December 2009: 995,032) representing 6.5% and 4.5% of each respective class of share capital as at 30 June 2010.

Under the terms of the Dividend Reinvestment Scheme Circular dated 18 April 2008, the following Ordinary shares and C shares of nominal value 50 pence per share were allotted at a price of 88.7 and 71.2 pence per share respectively:

Date of allotment	Number of shares allotted		Aggregate nominal value of shares (£'000)		Consideration received (£'000)		Opening market price per share on allotment date (pence per share)	
							Ordinary shares	C shares
	Ordinary shares	C shares	Ordinary shares	C shares	Ordinary shares	C shares	Ordinary shares	C shares
21 May 2010	33,738	57,168	17	29	30	41	74	62

9. Reconciliation of revenue return on ordinary activities before taxation to net cash inflow from operating activities

11. Post balance sheet events

Since 30 June 2010, the Company has completed the following material transactions:

- Investment in Rostima Limited of £3,000 (Ordinary shares) and £41,000 (C shares) in July 2010;
- Investment in TEG Biogas (Perth) Limited of £24,000 (Ordinary shares) and £145,000 (C shares) in July 2010;
- Investment in Xceleron Limited of £68,000 (Ordinary shares) and £82,000 (C shares) in August 2010;
- Disposal of Green Energy Property Services Group Limited in July 2010 for a deferred consideration of up to £9,000 in respect of the Ordinary share portfolio and £42,000 in respect of the C share portfolio;
- Repayment of £111,000 of loan stock (Ordinary shares) by Peakdale Molecular Limited in July 2010.

12. Related party transactions

The Manager, Albion Ventures LLP, is considered to be a related party by virtue of the fact that Patrick Reeve, a Director of the Company, is also the Managing Partner of the Manager. The Manager is party to a management agreement with the Company. During the period, services of a total value of £459,000 (30 June 2009: £471,000; 31 December 2009: £931,000) were purchased by the Company from Albion Ventures LLP. At the financial period end, the amount due to Albion Ventures LLP in respect of these services was £225,000 (30 June 2009: £30,000; 31 December 2009: £221,000).

Patrick Reeve is the Managing Partner of the Manager, Albion Ventures LLP. During the year, the Company was charged £10,000 (including VAT) by Albion Ventures LLP in respect of his services as a Director (30 June 2009: £10,000; 31 December 2009: £20,000). At the period end, the amount due to Albion Ventures LLP in respect of these services was £5,000 (30 June 2009: £nil; 31 December 2009: £5,000).

Notes to the unaudited summarised Financial Statements for the six months to 30 June 2010 (continued)

13. Going concern

The Board's assessment of liquidity risk remains unchanged since the last Annual Report and Financial Statements for the year ended 31 December 2009, and is detailed on pages 31 and 32 of those accounts. The Company has adequate cash and liquid resources. The portfolio of investments is diversified in terms of sector, and the major cash outflows of the Company (namely investments, dividends and share buy-backs) are within the Company's control. Accordingly, after making diligent enquiries, the Directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future. For this reason, the Directors have adopted the going concern basis in preparing this Half-yearly Financial Report and this is in accordance with 'Going Concern and Liquidity Risk: Guidance for Directors of UK Companies 2009' published by the Financial Reporting Council.

14. Other information

The information set out in this Half-yearly Financial Report does not constitute the Company's statutory accounts within the terms of section 434 of the Companies Act 2006 for the periods ended 30 June 2010 and 30 June 2009, and is unaudited. The information for the year ended 31 December 2009 does not constitute statutory accounts within the terms of section 434 of the Companies Act 2006 but is derived from the audited statutory accounts for the financial year, which were unqualified and which have been delivered to the Registrar of Companies. The Auditors reported on those accounts; their report was unqualified and did not contain a statement under s498 (2) or (3) of the Companies Act 2006.

15. Publication

This Half-yearly Financial Report is being sent to shareholders and copies will be made available to the public at the registered office of the Company, Companies House, the FSA viewing facility and also electronically at www.albion-ventures.co.uk under the 'Our Funds' section.
